SUMMARY

CS undergraduate interested in AI agents.

TECHNICAL SKILLS

Python, pandas, LangChain, OpenAI API, scikit-learn, SQL

PROJECTS

Research Agent with Google ADK | Python, Gemini, Firestore

- Built a research agent with Google ADK that plans sub-queries and uses tool calling for web search and citation lookup
- Kept conversation memory and session state in Firestore so long research tasks can resume
- Wrote pytest unit tests for each tool and deployed the agent on GCP Cloud Run

House Price Prediction | Python, scikit-learn, pandas

- Trained gradient boosting and linear regression models on 20k listings with feature engineering in pandas
- Tuned hyperparameters with cross-validation and reached an R2 score of 0.89

EDUCATION

B.Tech Computer Science, Example Institute of Technology | 2022 – 2026 | CGPA 8.3
