About Me

Data science student.

Tech Stack

Python, scikit-learn, pandas, NumPy, PyTorch, Matplotlib, SQL

Things I've Built

House Price Prediction | Python, scikit-learn, pandas

- Trained gradient boosting and linear regression models on 20k listings with feature engineering in pandas
- Tuned hyperparameters with cross-validation and reached an R2 score of 0.89

Internships

Data Science Intern, RetailCo | Jan 2024 – Jun 2024

- Built a churn prediction model with scikit-learn and pandas, presented insights to leadership

Academics

B.Tech Computer Science, Example Institute of Technology | 2022 – 2026 | CGPA 7.9
